OBJECTIVES

Motivated and detail-oriented Computer Science Engineering graduate with knowledge of Java, MYSQL, HTML, and CSS. Eager to begin a career in software development and contribute to innovative projects while continuously learning new technologies. Strong problem-solving abilities, quick learner, and passionate about building efficient .

EDUCATION

Pragna High School, Secondary School Certificate
GPA:10

2019 – 2020 | Bodhan, India

NSR Impulse, Intermediate: MPC
CGPA 9.4

2020 – 2022 | Hyderabad, India

Malla Reddy Engineering College and Management Sciences
Bachelors of Technology: Computer Science and Engineering
CGPA 6.10

2022 – 2026 | Hyderabad, India

PROJECTS

Nutrition Calculation

- Developed a Python-based system to calculate daily calorie and nutrient intake based on user data such as age, gender, and activity level. The project helps users plan balanced diets and track their nutritional goals effectively.

Deep Autoencoder-for Secure Iot Device Classification with Data Authentication

- Developed a Deep Autoencoder-based model for accurate classification of IoT devices using network traffic and behavioral data. The autoencoder extracts high-level latent features, improving recognition accuracy even in dynamic IoT environments. Integrated a lightweight cryptographic authentication mechanism to ensure data integrity and prevent spoofing or replay attacks.

SKILLS

Soft Skills:: Analytical Thinking | Problem Solving | Research & Innovation | Team Collaboration |
Technical Documentation | Time Management | Presentation Skills

Technical Skills: JAVA | PYTHON | HTML | CSS | C | MYSQL

CERTIFICATES

- Python -Internshala
- Java-Incognitive Classes
